Commissioner for Patents

COVER LETTER UNDER MPEP 201.06(c)

Sir:

Applicant submits herewith a patent application under 37 CFR § 1.53(b) which is a continuation of U.S. Ser. No. 10/393,966, filed March 21, 2003, entitled "Method for Filling a Vial", which is a division of U.S. Ser. No 09/781,846, now U.S. Patent No. 6,604,561, entitled "Medicament Vial Having a Heat-Sealable Cap and Apparatus and Method for Filling the Vial", and claims the benefit of U.S. Provisional Application Serial No. 60/182,139, filed February 11, 2000, entitled "Heat-Sealable Cap For Medicament Vial", the disclosures of which are incorporated by reference in their entirety as part of the present disclosure.

Provided herewith are a new specification and drawings and a copy of the signed Declaration and Power of Attorney filed in parent application U.S. Ser. No. 09/781,846.

The presently filed specification and drawings differ from the specification and drawings originally filed in the parent application only in that amendments made in the prior applications have been incorporated herein, and the Cross-Reference to Related Application section has been updated. Therefore, it is respectfully submitted that the new specification and

drawings do not contain any subject matter that would have been new matter in the parent application.

The claims presented in the present application include only those claims which were filed in parent application Ser. No. 10/393,966. The Preliminary Amendment submitted herewith amends those claims and presents additional claims corresponding in scope with those claims allowed in grandparent application U.S. Ser. No. 09/781,846, now U.S. Patent No. 6,604,561. Accordingly, the claims do not contain any subject matter that would have been new matter in the parent application.

It is respectfully submitted that the claims are allowable, and an early action to that effect is earnestly solicited.
